## PROFILE

A dedicated Software Engineering student at Bahria University Islamabad, with a strong grasp of programming, UI/UX design, and data structures. I bring hands-on experience in C++ and MySQL, along with active involvement in real-world project development. My coursework includes Object-Oriented Programming, Operating System and Data Structures & Algorithms, which have sharpened my problem-solving skills. I'm passionate about building efficient, user-friendly solutions and contributing to meaningful software projects.

## WORK EXPERIENCE

<b>Codex Cue</b>	2024
